About the workshop

- ❖ The creativity and innovations in science and technology are the major drivers for the socioeconomic growth of developed and developing countries in this 21st century.
- ❖ To get intellectual rights for such new inventions, techniques, models, plant varieties, chemical compounds, drugs and etc. and selling these rights to other countries/company/organizations could elevate the economic status of the nation.
- ❖ The major aim of this workshop is to create an awareness among young minds about the basic concepts of IPR, Patents, Copyrights, Trademark, protection of plant varieties/traditional knowledge and their claims.
- ❖ Also aims at establishing a basic level of understanding about the laws, rules and regulations related to IPR.

Who can attend the workshop?
